

Everdine Ebersohn

Home Loan Specialist

About me

I am a **“small town girl”** who matriculated in Delmas and has a passion for nature and people.

I married the **love of my life** and he is my biggest supporter.

I joined the banking industry **30 years ago** and have been working in **bond origination since 2007**.

During this time I received **multiple industry awards** from the banks and other business partners, as well as being a year on year Off-shore **TOP Consultant** incentive recipient at Capcubed.

I am passionate about home loans and can proudly say: **“I love my job”**.

My biggest reward is sharing in the excitement of my clients and agents when a home loan was approved.
